TABLE OF CONTENTS

INTRODUCTION

Thank you for your purchase of a Broadcast Tools® GPI-32, General Purpose Input Interface (referred to as the GPI-32 throughout this manual). We're confident that this product will give you many years of dependable service. This manual is intended to give you all the information needed to install and operate the Broadcast Tools® GPI-32.

SAFETY INFORMATION

Only qualified personnel should install Broadcast Tools® products. Incorrect or inappropriate use and/or installation could result in a hazardous condition.

Broadcast Tools, Inc., is unable to support NON-Broadcast Tools software, hardware or NON-Broadcast Tools computer/hardware/software problems. If you experience these problems, please research your hardware/software instruction manuals or contact the manufacturers technical support department.

WHO TO CONTACT FOR HELP

If you have any questions regarding your product or you need assistance, please contact your distributor from whom you purchased this equipment.

If you would like more information about Broadcast Tools® products, you may reach us at:

Broadcast Tools, Inc.

INTRODUCTION

Product Description

The GPI-32 interfaces 32 optically isolated inputs to a users PC's RS-232 or USB port. The serial data conforms to our standard audio switcher PIP format. The GPI-32 is equipped with dual plug-in euroblock screw terminals and two independent DB-37 connectors that may be interfaced directly to the DB-37 connectors located on the StarGuide II/III, XDS OR WW1-MAX relay cards. Additional features; dual RS-232 connectors, one for daisy-chaining multiple units on the same legacy serial port and a DB-9 to interface to our supplied USB to RS-232 adapter; LED indicators for power and input activity; twin power connectors allowing up to four units to be driven off of one power transformer. The GPI-32 is supplied with USB-RS-232 adapter cable, RJ-11 cable and "S9" DB-9 female adapter and 9vac wall transformer. The GPI-32 is powered by a surge protected internal power supply. The GPI-32 may be rack mounted via the optional 1-RU, RM-3 mounting shelf.

Installation Guidelines

Please examine your GPI-32 carefully for any damage that may have been sustained during shipping. If any is noted, please notify the shipper immediately and retain the packaging for inspection by the shipper. The package contains the GPI-32, 9 VAC @ 1 amp wall power transformer, USB-RS-232 Smart adapter cable, RJ-11 cable and “S9” DB-9 female adapter, DB-9 straight-thru serial cable and this manual.

NOTE: All connections are noted on the top cover label.

Input connections:

The two plug-in euroblock screw terminals (TB-1 & 2) are labeled “Inputs” 1 thru 16 and “Inputs” 17 thru 32. The last two screw terminals (17 & 18) on each plug-in euroblock are the ground connections. Each input is optically isolated and internally power by 5 vdc. Connect your equipment to the appropriate screw terminal and either of the GND terminals. Contact closures, TTL logic and/or open collectors may be used to activate each input. A valid input must be 40ms or greater and is indicated by a “wink” on the “DATA” led.

NOTE: The two female DB-37 connectors are designed to directly mate to the StarGuide II/III relay card connector via the supplied cables. The pin-outs for the DB-37’s are listed below.

J5, Inputs 1 thru 16

Input 1, pin 1
Input 2, pin 2
Input 3, pin 3
Input 4, pin 4
Input 5, pin 6
Input 6, pin 7
Input 7, pin 8
Input 8, pin 9
Input 9, pin 11
Input 10, pin 12
Input 11, pin 13
Input 12, pin 14
Input 13, pin 16
Input 14, pin 17
Input 15, pin 18
Input 16, pin 19

J6, Inputs 17 thru 32

Input 17, pin 1
Input 18, pin 2
Input 19, pin 3
Input 20, pin 4
Input 21, pin 6
Input 22, pin 7
Input 23, pin 8
Input 24, pin 9
Input 25, pin 11
Input 26, pin 12
Input 27, pin 13
Input 28, pin 14
Input 29, pin 16
Input 30, pin 17
Input 31, pin 18
Input 32, pin 19

Ground pins on both J5 & J6: Pins 20, 21, 22, 23, 25, 26, 27, 28, 29, 30, 31, 32, 34, 35, 36, 37

Pins not used on both J5 & J6: Pins 5, 10, 15, 24, 33

CAUTION!

Installation of the GPI-32 in high RF environments should be performed with care. It is recommended that all cables connected to the GPI-32 be looped through ferrite cores to suppress RF. Surge protection with RF filtering such as the Tripp-Lite “ISOBAR 4 or 6” is also suggested for the wall transformer. Shielded cable is suggested for all input connections. The shields and station ground should be tied to the “CHASSIS GROUND” screw terminal. For lightning protection devices, check out www.polyphaser.com and www.itwlinx.com.

RJ-11 Serial connector:

The GPI-32 is supplied with the “S9” RJ-11 to DB-9 female adapter and RJ-11 four conductor X-Over cable. We supply this cable for normal serial operation or in case multiple GPI-32’s are used with the users PC.

DB-9 Female Serial connector:

The female DB-9 connector is provided for customers wanting the use a user provided straight-thru serial cable to connect to the COM port of their PC. The supplied USB-RS-232 adapter cable should be attached to this connector if USB operation is required.

USB-RS-232 Adapter Cable:

The Smart USB to RS-232 adapter cable is provided for customers needing to use the USB port supplied with their PC. Remove the smart adapter cable from the packaging and follow the installation instructions provide with the adapter cable. When the smart adapter is operating, connect the USB connector to the PC and the male DB-9 connector to J3 on the GPI-32.

Specifications

Digital Inputs	32 - Optically Isolated inputs (5 vdc @ 8ma). 40ms min duration.
RS-232 Serial Port	9600, 2400, 19200, 38400 baud, 8 data bits, no parity, 1 stop bit. Other baud rates may be requested as a special order.
Interfacing	Inputs - Two plug-in euroblock screw terminals and/or female DB-37 RS-232 serial port - Female DB-9. Handshaking disabled. RS-232 serial port - RJ-11. S9 adapter compatible.
Logic	Microprocessor
Power	9 Vac @1 amp or 500 ma / 120 Vac 50-60 Hz, "Wall Wart" Supplied. One supply may power up to three additional GPI-32's.
Mechanical	16-5/16" x 4.00" x 1.00" (WDH)
Weight	2 pounds
Option	RM-3, rack shelf for mounting one unit in 1-RU. CE, 240 Vac 50-60 Hz wall wart
Ethernet Option	Ethernet Serial Server. Broadcast Tools® ESS-1

SPECIFICATIONS

LIMITED WARRANTY

The term “Buyer” as used in this document refers to and includes both (but only) (a) any person or entity who acquires such an item for the purpose of resale to others (i.e., a dealer or distributor of an item), and (b) the first person or entity who acquires such an item for such person’s or entity’s own use.

Broadcast Tools warrants to each Buyer of any item manufactured by Broadcast Tools that the item will be free from defects in materials and workmanship at the time it is shipped by Broadcast Tools if the item is properly installed, used and maintained.

EXCLUSIVE REMEDIES

If Broadcast Tools is notified, in writing, of a failure of any item manufactured by Broadcast Tools to conform to the foregoing Limited Warranty within one (1) year following the date of the Buyer’s acquisition of the item, and if the item is returned to Broadcast Tools in accordance with Broadcast Tools’ instructions for confirmation by inspection of the defect (which at Broadcast Tools’ election may include, without limitation, a requirement that the Buyer first obtain a Return Authorization number from Broadcast Tools, that the Buyer furnish proof of purchase in the form of an invoice and/or receipt, and that the Buyer prepay all freight charges associated with any return of the item to Broadcast Tools using such freight service as Broadcast Tools reasonably may specify), Broadcast Tools will repair or replace the defective item, or will refund the purchase price paid by the Buyer for the item. Broadcast Tools shall have the exclusive right to choose between these alternative remedies.

NO OTHER WARRANTIES OR REMEDIES

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, BROADCAST TOOLS AND ITS SUPPLIERS DISCLAIM ALL OTHER WARRANTIES, EITHER EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE; AND THE FOREGOING ALTERNATIVE REMEDIES SHALL BE EXCLUSIVE OF ALL OTHER REMEDIES. THIS LIMITED WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS. YOU MAY HAVE OTHER RIGHTS, WHICH VARY FROM STATE/JURISDICTION TO STATE/JURISDICTION.

NO LIABILITY FOR CONSEQUENTIAL DAMAGES

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, NEITHER BROADCAST TOOLS NOR ANY OF ITS SUPPLIERS SHALL HAVE ANY LIABILITY FOR ANY SPECIAL, INCIDENTAL, INDIRECT, CONSEQUENTIAL OR PUNITIVE DAMAGES WHATSOEVER (INCLUDING, WITHOUT LIMITATION, ANY DAMAGES FOR LOST PROFITS, BUSINESS INTERRUPTION, LOSS OF DATA OR INFORMATION, COST OF CAPITAL, CLAIMS OF CUSTOMERS, OR ANY OTHER PECUNIARY LOSS) ARISING OUT OF THE USE OF OR THE INABILITY TO USE ANY ITEM SUPPLIED BY BROADCAST TOOLS, EVEN IF BROADCAST TOOLS HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES HAVE ANY LIABILITY FOR ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL, EXEMPLARY OR PUNITIVE DAMAGES. THIS LIMITATION OF LIABILITY APPLIES WHETHER A CLAIM IS ONE ALLEGING BREACH OF A CONTRACT OR WARRANTY, NEGLIGENCE OR OTHER TORT, FOR THE VIOLATION OF ANY STATUTORY DUTY, THE FAILURE OF ANY LIMITED OR EXCLUSIVE REMEDY TO ACHIEVE ITS ESSENTIAL PURPOSE, OR ANY OTHER CLAIM OF ANY NATURE. BECAUSE SOME STATES AND JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF LIABILITY FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES, THIS LIMITATION MAY NOT APPLY TO YOU.

APPENDIX

Functional Diagram

Broadcast Tools[®] GPI-16

RS-232, Power, LED and Connector Layout

The 16 status/logic inputs may be activated either by pulling the input to ground or releasing the input to a high state. External sources can be contact closures, open collectors or 5, 12, 15, and 24-volt logic-level sources. The input impedance of each input is 22 K ohms. Supplied with plug-in Euroblock connectors.
