FEATURED PRODUCTS

AES Switcher Sentinel® 2+1

Web-enabled AES/EBU Silence Sensor w/ ADC

Web-enabled two channel AES/EBU and one channel analog to digital silence monitor with an integrated 3x1 audio switcher. Other features include: switchable headphone and balanced analog stereo monitor audio outputs, front panel, web, and GPIO controls. Support for email notification and SNMP built-in.

List \$769.00

2x16 DA/RJ

2x8 or 1x16 RJ45 Distribution Amplification

The 2x16 DA/RJ is an analog stereo RJ45 audio distribution amplifier equipped with a line level input, which accept either a balanced RJ45 (+4 dBu) source or an unbalanced RCA (-10 dBV) source and features 16 active balanced output amplifiers making up eight stereo outputs. For monaural operation each output pair may be individually summed to mono via an internal jumper.

List \$279.00

NEW

SS 4.1 MLR/RJ

4x1 Passive Analog Stereo Switcher

The SS 4.1 MLR/RJ is a transparent four input, one output stereo RJ45 audio switcher/router with mechanical latching relays. The SS 4.1 MLR/RJ is perfect for all types of passive signal switching via front panel switches, contact closures and/or RS-232 serial commands.

List \$369.00

NEW

SS 2.1 MLR/RJ

Switcher/Router w/ Mechanical Latching Relays

The SS 2.1 MLR/RJ is a transparent two input, one output stereo RJ45 audio switcher/router with mechanical latching relays. The SS 2.1 MLR/RJ is perfect for all types of passive signal switching via front panel switches, contact closures and/or RS-232 serial commands.

List \$279.00

NEW

RJ-XLR 8F 8M

RJ45 to XLR Breakout Panel

The RJ-XLR 8F 8M is a 1RU 19" rack breakout panel that converts 8 female XLR jacks (XLR-F) and 8 male XLR jacks (XLR-M) to RJ45 audio jacks using the standard Cat5 audio pinout. Designed for stereo, mono, or AES signals.

List \$339.00

SUMMER 2020

FEATURED PRODUCTS

List \$689.00

ProMix-4

The ProMix 4 is a full-featured audio mixing console perfect for most any broadcast studio while also excelling in remote broadcast and podcasting applications. It features three microphone and/or line inputs as well as a dedicated line input that may be switched between a balanced line input and the internal USB codec. It also gives you a program limiter, a balanced and unbalanced mix buss and a mix-minus output, while offering three independent headphone amplifiers with IFB/Program pan controls along with a comprehensive studio monitoring system.

List \$459.00

List \$739.00

Audio Sentinel® 4»Web

The Audio Sentinel® 4» Web is a web-enabled four channel stereo/eight mono channel silence monitor. All four stereo inputs are balanced and feature pluggable screw terminal-block and StudioHub+ compatible RJ45 inputs wired in parallel for ease of wiring. Each stereo input can be configured for out of phase monitoring in addition to silence monitor or the input may be configured to act as two separate mono channels, allowing the user to monitor up to a total of eight different mono audio sources. Support for email notification and SNMP built-in.

WVRC-4 »Plus

4 Channel Web & Voice Remote Control System
The WVRC-4 Plus provides a cost-effective, ½ rack-unit solution allowing dial-up recordable voice response and/or web-enabled control and monitoring via a web browser and/or smart phone. The WVRC-4 Plus was designed from a user's point of view, so all of the basic functionality you need is included to control and monitor your site equipment, while including the accessories other manufacturers consider optional. Support for email notification and SNMP built-in.
